The Triological Society continues to promote research into the causes of and treatments for otolaryngic diseases by providing financial support for research efforts of young otolaryngologists-head and neck surgeons. The Society annually awards nearly \$500,000 in support of clinical research, basic research and alternative science.

CALL FOR RESEARCH CAREER DEVELOPMENT PROPOSALS

Letters of Intent due December 1, 2019 • Applications due January 31, 2020

These awards provide support for the research career development of young otolaryngologist-head and neck surgeons. Projects must have a direct impact on the applicant's ability to pursue his/her long range research objectives. These awards will provide funding of \$40,000 for a period of 12-24 months (non-renewable). Projects may focus on clinical research, basic research, health services and outcomes research, technology/procedure development, otolaryngology status and trends, and historical perspectives. Grant policies and guidelines are available at www.triological.org/researchgrants.html.

Information regarding other grant programs can be found on the Society's website.
